

# National Alternative Fuels Training Consortium (NAFTC)

## Membership Benefits

### Associate Training Center – \$500 Annual Membership Fee

High schools, technical centers, and other organizations that provide secondary education are eligible to be considered for membership as an Associate Training Member. Associate Training Members will receive the following benefits:

#### **Curricula and Training**

- Access to industry-recognized and award winning participant/student, course and workshop curricula and materials, about alternative fuels, alternative fuel vehicles (AFVs) and advanced technology vehicles;
- Access to corresponding instructor manuals for courses and workshops;
- Member discount on instructor and student manuals;
- Licensing access to online NAFTC courses and workshops;
- Participation in train-the-trainer classes, instructor updates, and professional development activities;
- Member discount on instructor and student manuals and NAFTC Headquarters courses and workshops;
- Access to technical support for NAFTC training, products, and services; and
- Media training for NAFTC First Responder courses;
- Opportunity to participate in the NAFTC curriculum development process for AFVs and advanced technology vehicles.

#### **Industry Information**

- Receive informative NAFTC correspondence, including NAFTC eNews, Clean Alternatives Report (CARReport), and industry and legislative updates, which will keep your institution up-to-date on the AFV and advanced technology vehicle industry advancements; and
- Access to the “Member’s Area” section of the NAFTC Web site, which includes a members-only download area, instructor resources, information on NAFTC Business Meetings, marketing information, and a Member’s Forum.

#### **Marketing Opportunities**

- Receive professional plaque for organization to display NAFTC membership; and
- Inclusion on the NAFTC Web site including a dedicated Web page for each Affiliate Training Center. This page will provide information about the school’s training program and link to both the school’s Web site and the school’s automotive or other program (**Note:** Information for this page should be submitted by each Associate Training Center for inclusion on the school’s dedicated Web page).
- Submit news releases for possible inclusion in NAFTC eNews and the CARReport, which are distributed to the NAFTC’s membership and Listservs;

#### **Networking Opportunities**

- Build valuable relationships and exchange information with key industry leaders during your attendance and participation at NAFTC business meetings, conferences, and professional development activities;
- Receive discounted rates to NAFTC conferences and instructor updates; and
- Opportunity to participate in AFV and advanced technology vehicle events and activities, including National AFV Day Odyssey.
