

Clean Cities Learning Program

*Alternative Fuel and Advanced Technology Vehicles
Curricula, Training, and Education and Outreach Activities*

The National Alternative Fuels Training Consortium (NAFTC) is working in partnership with the U.S. Department of Energy (DOE) Clean Cities Program to develop the turn-key Clean Cities Learning Program to raise awareness and foster a greater understanding of alternative fuels, alternative fuel vehicles, and advanced technology vehicles through a targeted education and outreach effort. This program will enable Clean Cities Coalitions and other stakeholders to better implement petroleum reduction technologies by advancing the use of alternative fuels, alternative fuel vehicles, advanced technology vehicles, and idle reduction technologies through state-of-the-art curricula, training, and education and outreach materials, all of which will be disseminated by the NAFTC and U.S. DOE Clean Cities. See back for available training details. Training available will include the following:

First Responder Safety Training

Designed specifically to reduce the risks taken by first responders when responding to an incident involving alternative fuels, alternative fuel vehicles, and advanced technology vehicles.

4-hour workshops will be available on the following topics:

- First Responder Safety Training: Biofuels (biodiesel and ethanol) and Biofuel Vehicles
- First Responder Safety Training: Gaseous Fuels (natural gas and propane) and Gaseous Fuel Vehicles
- First Responder Safety Training: Hydrogen and Hydrogen-Powered Vehicles
- First Responder Safety Training: Electric Drive Vehicles

Petroleum Reduction Technologies

Designed specifically to raise awareness and foster a greater understanding of alternative fuels, alternative fuel vehicles, advanced technology vehicles, petroleum reduction technologies, fuel economy and idle reduction, and related technologies.

Workshops will be available on the following topics:

- Biodiesel
- Ethanol
- Natural Gas
- Propane
- Electric Drive Vehicles
- Hydrogen
- Fuel Economy and Idle Reduction

The U.S. DOE Clean Cities Program is a government-industry partnership designed to reduce petroleum consumption in the transportation sector by advancing the use of alternative fuels and vehicles, idle reduction technologies, hybrid electric vehicles, fuel blends, and fuel economy measures.
