

Clean Cities Learning Program

*Alternative Fuel and Advanced Technology Vehicles
Curricula, Training, and Education and Outreach Activities*

Petroleum Reduction Technology Training

Designed specifically to raise awareness and foster a greater understanding of alternative fuels, alternative fuel vehicles, advanced technology vehicles, and other petroleum reduction technologies, such as fuel economy and idle reduction.

Workshops available on the following topics:

- Biodiesel
- Ethanol
- Natural Gas
- Propane
- Electric Drive Vehicles
- Hydrogen
- Fuel Economy
- Idle Reduction

The National Alternative Fuels Training Consortium (NAFTC) is working in partnership with the U.S. Department of Energy (DOE) Clean Cities Program to develop and implement the turn-key Clean Cities Learning Program. Through a targeted education and outreach effort, the Clean Cities Learning Program raises awareness and fosters a greater understanding of alternative fuels, alternative fuel vehicles, and advanced technology vehicles. This program enables Clean Cities Coalitions and other stakeholders to better implement petroleum reduction technologies by advancing the use of alternative fuels, alternative fuel vehicles, advanced technology vehicles, and petroleum reduction technologies through state-of-the-art curricula, training, and education and outreach materials, all of which is disseminated by the NAFTC and U.S. DOE Clean Cities.

A Program of

National Alternative Fuels Training Consortium

Ridgeview Business Park
1100 Frederick Lane
Morgantown, WV 26508

The National Alternative Fuels Training Consortium is the only nationwide alternative fuel and advanced technology vehicle training organization in the U.S.

U.S. Department of Energy

The U.S. DOE Clean Cities Program is a government-industry partnership designed to reduce petroleum consumption in the transportation sector by advancing the use of alternative fuels and vehicles, idle reduction technologies, hybrid electric vehicles, fuel blends, and fuel economy measures.
